

Listing of the Claims:

Please amend the claims as follows and replace all prior versions and listings of the claims in the application with the following listing of claims:

1. (Currently Amended) A pre-folded flower wrap comprising:
a sheet of material comprising a plurality of scored intersecting lines, the plurality of scored intersecting lines defining a distinct folding sequence when moving the sheet of material from an unfolded position to a folded position, the folding sequence corresponding to a pre-determined folded shape for the pre-folded flower wrap, ~~wherein the pre-determined folded shape flower wrap~~ comprising an overlapping portion and a plurality of peaked sections that provide an appearance of the sheet of material having been wrapped by hand around a floral arrangement when the sheet is in the second folded position, wherein the pre-determined folded shape is capable of being used like a flower sleeve to hold the floral arrangement.
2. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the sheet of material comprises a single layer.
3. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the sheet of material further comprises visual indicia arranged to illustrate the folding sequence.
4. (Currently Amended) The pre-folded flower wrap of claim 1, wherein the sheet of material further comprises a fastening means disposed on ~~a least one portion of the sheet of material that is an~~ overlapping portion when the sheet of material is in the ~~second~~ folded position to secure the pre-folded flower wrap in the pre-determined shape.
5. (Previously Amended) The pre-folded flower wrap of claim 4, wherein the fastening means comprises adhesive, double-sided tape, mechanical fasteners, direct bonds or combinations thereof.
6. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the pre-

determined shape is generally conical having an open top and bottom.

7. (Canceled)
8. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the pre-determined shape further comprises the appearance of multiple overlapping hand-wrapped layers.
9. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the sheet of material further comprises markings disposed across the sheet of material and arranged to produce a selected appearance when the sheet is in the folded position, wherein the markings are arranged to compliment the pre-determined shape of the pre-folded flower wrap.
10. (Previously Amended) The pre-folded flower wrap of claim 9, wherein the pre-determined shape comprises a generally conical shape and the markings are arranged to produce an appearance of a generally translucent inner wrap surrounded by a generally transparent outer wrap.
11. (Previously Amended) The pre-folded flower wrap of claim 1, wherein the sheet of material further comprises a plurality of folded positions, each one of the plurality of folded positions corresponding to a distinct pre-folded flower wrap, the plurality of scored intersecting lines defining a plurality of distinct folding sequences, each one of the distinct folding sequences associated with one of the folded positions and used when moving the sheet of material from the unfolded position to the desired folded position.
12. (Currently Amended) A method for making a pre-folded, secured flower wrap for use in packaging flowers and potted plants, the method comprising:
folding a sheet of material across a plurality of intersecting lines in accordance with a distinct folding sequence ~~associated with~~ corresponding to a pre-determined folded shape ~~to form the pre-folded flower wrap~~ comprising an overlapping portion and a

plurality of peaked sections that provide an appearance of the sheet of material having an appearance of having been wrapped by hand around a floral arrangement;
securing the pre-folded flower wrap in the pre-determined shape; and
shipping the secured pre-folded flower wrap.

13. (Original) The method of claim 12, further comprising scoring the plurality of intersecting lines in the sheet of material.
14. (Previously Amended) The method of claim 12, further comprising:
scoring a plurality of intersecting lines in the sheet of material corresponding to a plurality of distinct folding sequences;
selecting a desired folding sequence from the plurality of distinct folding sequences;
and
folding the sheet of material in accordance with the selected folding sequence.
15. (Original) The method of claim 13, wherein the step of scoring the sheet of material further comprises scoring a plurality of paper sheets simultaneously.
16. (Original) The method of claim 13, wherein the step of scoring the sheet of material comprises scoring a single film sheet using a metallic die.
17. (Original) The method of claim 12, wherein the step of securing the package in the pre-determined shape comprising applying a fastening means to at least one overlapping portion of the pre-determined shape.
18. (Currently Amended) ~~A method for making a pre-folded, secured flower wrap for use in packaging flowers and potted plants, the method comprising:~~
a sheet of material comprising: scoring
a plurality of scored intersecting lines ~~in a sheet of material~~, the plurality of intersecting lines defining a distinct folding sequence when moving the sheet of material from an unfolded position to a folded position; and
markings disposed across the sheet of material and arranged to produce a

selected appearance when the sheet is in the folded position;
wherein the folding sequence correspondsing to a pre-determined folded shape to
form the pre-folded flower wrap having comprising an appearance of being wrapped
by hand when the sheet is in the ;
applying a fastening means to at least one portion of the sheet of material that is an
overlapping portion of the pre-determined shape; and
shipping the sheet of material in an unfolded position state and the markings are
arranged to compliment the pre-determined folded shaped by producing an appearance
of a generally translucent inner wrap surrounded by a generally transparent outer
wrap.

19. (Previously Added) The pre-folded flower wrap of claim 10, wherein sheet of material comprises a single layer.
